

WEAPONS STORAGE ARMORIES

Weapons Storage Compliance Made Easy

Armag Corporation's custom manufactured weapons storage armories are fully compliant and approved for use by DoD 5100.76M, AR190-11 and OPNAVINST 5530.13C. We have manufactured weapons vaults for decades and have over 1,000 in circulation worldwide. They are manufactured at our facility and delivered 'plug and play', thus eliminating the frustration of researching design regulations and headaches associated with traditional on-site construction. Call Armag, put our decades of experience to work for you, and let us deliver the weapons storage facility you need on the date you need it.

Turn-Key Solution

- Delivered wired and ready to connect to base or generator power. Can be operational within hours of delivery
- Intrusion Detection System (IDS) can be installed at our facility or at the destination
- Optional weapons racks with interchangeable inserts allow each rack to store an assortment of weapons
- Can be purchased by government to government transaction (MIPR) which virtually eliminates the paperwork hassle associated with the acquisition process

Features

Equipped with HVAC, interior and exterior lighting, steel Dutch issue door, painted interior and commercial tile floor. Numerous options are also available.

Advantages

- Quick solution for long term storage needs
- Cost effective when compared to conventional on-site construction
- Customized with options to meet the unique application
- Can be utilized outdoor or indoor for permanent or temporary use
- Fully compliant with military regulations

Call Armag Corporation and put our decades of experience to work for you!
